ACKNOWLEDGEMENT

I acknowledge receipt on September 15, 2006 of Dr. Peter H. Markesteyn's Findings resulting from his Review and Investigation of the circumstances surrounding the death of Zachary Turner in 2003.

I have determined that the Findings of Dr. Peter H. Markesteyn should be published in their entirety. No alterations to the style, factual content, grammar, spelling or format have been made. The only changes to the Report (listed below) relate to the correction of Zachary Andrew Turner's date of birth and legal name, the deletion of names of the surviving children of Dr. Shirley Turner, the deletion of four references to the school attended by the children of Dr. Shirley Turner, and the deletion of the names of three identified professionals to conform with Dr. Markesteyn's expressed "no name, no blame" approach employed throughout his Findings.
